

Madeleine by Jonathan Kelly

Tuning: EADGBE

This uses chord names as they would be without a capo, but it's capo second fret on the original LP/CD.

Also probably the first time 'heart' has rhymed with 'Sartre'

Finally, I've had to revise the intro chords after some 35 of playing them wrongly. The second chord in the intro was originally Dsus4. This has now morphed into a version of Em7 which sees the D chord moved up two frets and changed to a Dm shape.

And I've been spelling it wrongly for 35 years too.

Good practice would be to get used to going up and down on the top E string in a D shape, and the same on the B string in an A shape.

Not sure about the names of all the chords are, but diagrams show what you play. I hope I haven't made it look unnecessarily complicated.

Corrections welcome!
